

## Woods.

---

Our part of the county is improving rapidly, and the crops look splendid.

Krebs Bros. has their mill in good shape. They have it running with steam.

Quite a number of pleasure seekers are coming in now.

Last Friday closed a six months term of school at the Knifong school-house. It closed with an exhibition, which was a credit to Miss Dunn, who was teacher, and loved by all her scholars, and respected by everybody.

There was a dance at Jasper Smith's last Friday night. There was a large crowd present and everybody enjoyed themselves unless it was the little Democratic Voice. While he was trying to make a mash on some of the back-woods girls, the girls got away with his two bottles of "invigorator." He will learn that the girls do not appreciate his being such a temperance man and come down here with his bottles. So they saved his name from being blurred by being piled in the fence corners as he said Hays, Jones & Co. were on the Nehalem.
