

## ORETOWN.

Mr. Cleghorn of Portland died at his home May 8 and his body will be brought here for burial. He had intended in a short time to make Nestucca his home and we deeply regret he has so suddenly been called away.

Mrs. M. A. Bowers of Meda is not expected to live. She had recovered from the grip but took a relapse and is very low. Dr. Linton of Woods is in attendance.

Jeff Dunn, who is now in Dallas, is very ill with LaGrippe and Fred Scherzinger has gone out to render what assistance he can.

William Gardner has gone to the valley.

Three large whale were seen in the Nestucca Bay last week. They could easily have been taken but were not.
