

## ORETOWN.

Several wagons of coasters came in last week.

Mr. Barnhart has commenced the erection of his house on the Bay.

Messrs. Dunn & Craven deserve credit for their work on the new road between Little and Big Nestucca. Now we need the bridges.

The new county road to Slab Creek is nearing completion and when finished will be appreciated by the summer coasters who wish to avoid pulling through four miles of soft sand during high tides.

Mr. Haverlin of Dolph has the contract for carrying the mail between that place and Neskowin. An effort will soon be made to have the lines extended to Grand Ronde, it being the wish of the entire community.

A. O. Yates has gone to Portland where he has the contract to build several houses.

A golden opportunity awaits the person who will start a general merchandise store in Little Nestucca. The settlers of this portion of country find it very inconvenient to be compelled to go 10, 12 and 14 miles in order to obtain the necessaries.
